# ABOUT C&D

## THREE GENERATIONS. ONE PIECE OF LAND AT A TIME.

Charlie's family has been working land since 1912. Winchester Land and Cattle. Wyoming ranch country. Generations of cattlemen who built something from nothing and passed it down the hard way.

Today Charlie runs a working cattle operation in Central Florida. When his rancher neighbors needed land cleared, stumps pulled, and overgrown pasture brought back to life, he didn't hire a contractor. He built a division. C&D Forestry was built by a cattleman for cattlemen.

Charlie knows what productive agricultural land looks like because he manages it every day on his own property. When he shows up on your land he's not a contractor looking at acreage. He's a rancher looking at land. He's not sending a crew. He is the crew.

# WHAT WE DO

YOUR LAND. EVERY ACRE. DONE RIGHT.

## FORESTRY MULCHING

Thick brush, palmetto scrub, invasive species — cleared and mulched back into the soil. No burning. No hauling

## PASTURE RECLAMATION

Overgrown pasture brought back to productive grazing land. We restore what neglect and time have taken.

## POND & DRAINAGE WORK

Pond shaping, ditch clearing, and water management for working agricultural operations.

## LAND PREP & HARROW

Seedbed preparation and soil tillage for hay, row crops, and replanting after clearing.

## FENCE LINE CLEARING

Clean fence lines mean better cattle management. We clear the boundaries that keep your operation running.

## STUMP REMOVAL & MORE

Storm debris, timber stand improvement, hunting property clearing. If it needs doing on large acreage, we do it.

# MEET THE FLEET

## THE FAE MULCHERS

### FAE PT300

Industrial tracked mulcher. Heavy overgrowth, fence lines, pasture reclamation, and mid-size clearing jobs done right.

### FAE PT400

Carbide tipped. Built for the heaviest clearing jobs — thick brush, dense palmetto, invasive species, and timber stands. Nothing stops it.

THE MOST POWERFUL TRACKED MULCHERS IN THE SOUTHEAST.

# WHERE WE WORK

FLORIDA. GEORGIA. ALABAMA. WE COME TO YOU.

Based in the heart of Central Florida cattle country, C&D Forestry serves agricultural landowners across the state of Florida, South Georgia, and Southeast Alabama. For large scale projects we travel. If you've got the land, we've got the equipment.

- Central and South Florida
- North Florida
- South Georgia
- Southeast Alabama
- Large scale projects outside these areas, call us and let's talk
